The Weirdest Story Since "The Invisible Man" "The Strange Case of John Ferguson" — By William Garrett

"A widespread influence  
among women"

The National Council of Women of Canada

*\*All Canadian women should be interested in magazines published in this country because of the special application of the fiction and articles to our national background and current interests.*

"Maclean's Magazine can wield a widespread influence upon public opinion among women in all parts of the Dominion. Having read Maclean's myself for some years, I feel that this responsibility is recognized by those in control of its policy."

(Miss) M. M. Mawatari Kaji

**I**N ARTICLES characteristically its own, Maclean's thinks and speaks in Canadian terms for the Canadian people. Its fiction and entertainment features have crispness and variety. There is always something of live interest for every reader.

No other magazine has such influence upon the Canadian people from coast to coast. No other magazine is as frequently quoted and discussed. No other magazine is so well regarded by so many Canadian families.

*Set et for single publications, available from the Wildlife Conservation Society and often freely used with much reference at their "Working Committee on Standardized Nomenclature." Special Officer and University Services, Division of Scientific Methods, Chicago, New York.*

By ELEANOR DeLAMATER

**W**HEN STEPHEN DREWING arrived at his brother's house one late winter evening in 1945, the older brother was sleeping soundly himself. It was a winter's night, and the snow had piled up so high that the two brothers had to walk through it to get to the house. Mr. and Mrs. Drewing had been in bed for a long time when their son returned home, but the son was so weary from his journey that he lay down on the floor of his brother's room and went to sleep there.

Thus, by way between 3-10 % of all cases of breast cancer are due to genetic factors.

years old and the servants should constantly be able to take care of him during the few weeks that he will be staying there.

## Pitcairn Island

By DOROTHY BRANDON

strength 13–disputed that Justice Smith and Justice Sosman denied him a hearing on his habeas petition because he was not represented by counsel.

and each of the leaves is 1 in. long. The leaves are opposite or whorled, and the flowers are arranged in cymes. The flowers are yellowish green. The fruit is a small, round, smooth, yellowish-green berry.

It is not clear what the hold up is in sending this. It is my understanding that the letter was sent to the appropriate office at the State Department, and all that remained to do was to wait and see what happens. The letters about longitude will remain here until sometime in November. At this time, very little of this has been done, but I am working on it. I have a copy of the original letter and a corrected version which requires some changes. I am also working on the letter about longitude, which has been delayed by the State Dept. I have sent the same letter to the State Dept., along with a note asking them to expedite this. I have also sent a copy of the corrected letter to the appropriate office at the State Dept. I am not sure if this will help, but I am doing what I can to expedite this process.

## Devaluation of Minimum

In 1984, the WHO set up a task force to review the evidence on the health effects of passive smoking. The report concluded that there was no safe level of exposure to second-hand smoke, and recommended that non-smokers should not be exposed to it.

Stanley Rabin, E113 "I do not believe in the possibility of Communism persisting given its nature as being at the hands of such intelligent clowns."

**Written form** often becomes the solution as readily  
as oral and visual. It has collected and spread more  
widely than any other method of communication.  
Written form, while it reaches and stays with its  
audience, fails to impress them. Their logic, wit,  
and originality are lost. The written word is  
less personal than the spoken word. It cannot  
be used effectively for the oral communication  
of this present age.

The answer is not protecting the home or  
the person who lives there.

## Literature Trends

By FRANK MANN HARRIS

**N**EVER IN HISTORY, there has been a more difficult time to be a citizen of a state—let alone a poor country—and nothing gives a people a harder battle with itself to make out a living than does the task of surviving in a world where the rich are getting richer and the poor are getting poorer. This is what happened to the people of Chile under the military junta of General Augusto Pinochet.

This isn't the same Chile as the one that was so successful in its efforts to build a modern industrial base within the last 20 years. The Chile of the 1950s and 1960s was a country that had made significant progress in its economic development, and it was a leader in Latin America.

In practice I should say the Chilean economy, as it is in all of the Western Hemisphere, suffered the effects of the U.S. economic recession. Chile's economy was not as bad as most of the others, but it was still bad. And when it came to protecting its investments, Chile had as much trouble as anyone else in a country where the rich were getting richer and the poor were getting poorer.

**SO YOU CAN** easily see that at least some wealth didn't get to the Chileans who have done well. In fact, a substantial number of Chile's wealthier citizens have moved to the United States, which is why the

## What It Takes Is Strategy

With contributions from Bill Gifford and Jim Pendleton

I left off where we last left off, understanding that Chile's economy had been hit hard by the U.S. recession. But the Chileans' problem goes far beyond that. They've got to figure out how to live on less money, and they've got to do it without losing their independence and autonomy. The government of President Salvador Allende, who was elected in 1970, has been trying to do just that. And he's succeeded in doing it, though not without some difficulties.

How? By creating a strong army and a strong economy. He's put a lot of money into a strong, and well-organized army which is more or less independent of the government. He's also created a strong navy and air force, and he's got a good

He's also run the country of the day, and I have heard you there where there is a kind of pride in giving

The  
Strange Case  
*of* John  
Ferguson

By WILLIAM GARRETT

**A**FTER THE LARVE of some years I find myself in a position to make public certain remarks concerning the formation of the Niagara river. I can not see that Mr. Thompson did his best. He could hardly be faulted, however, as an exponent of the rock-cut theory, but it is evident that he has not made sufficient observations, nor is he acquainted with some points well, if I may say so. The going over the thing can not be helped.

Personally, I think, she was a normal human being until very early in her life when her response was the response of a disturbed mind at that time. She did not want what kind of life experience... I had felt it.

I tried to have a study with John Dryden when he was another student at Edinburgh University and was told once again that she was not fit to be interviewed. When I went back I asked him if he could speak to me about the Professor. He said he was not able to do so because he had been engaged in another research recently. At that time he was engaged in some sort of another project and had gone to the place where he was living before he came to Edinburgh. The Professor, Mrs. Jane Latimer's son, I was told, had been engaged in some other research and had been away from Edinburgh for a long time. I asked him if he had any information about his father and he said "I don't know if he has or not." I asked him if he had any information about his father and he said "I don't know if he has or not."

He seemed to be a good man. I did not see him again after he had come back to work and was never able to speak with him again. But he was a good man and I am sure he did not do any harm to anyone. I am sure he did not do any terrible harm. I am sure he is a good man.

many made lie him an acquaintance with the master of the estate.

One would lie told here of the Thompsons. Mr. Hartley was a strong, sturdy seaman, married to the most beautiful woman I have ever seen. Mrs. Hartley was the daughter of the Captain of a large vessel. Mr. Hartley's father, the captain of his brother's mate, had been lost at sea long ago. Hartley and myself were never so intimately associated as during our stay at the Thompsons' home.

**O**N MONGAV, 16th March Dr. Kasturibai wrote me as follows: "In the village where we live there is a native school run by the Christians. Dr. Wetherell taught there. The 15th he received commandment from Fugueau that they should not be allowed to teach. On Thursday morning the 16th he appeared accompanied by the village chief Fugueau, referred various charges and visited the local teacher who was also an expert on the South West Coast. He said that the Government had been asked to regulate 43-400 in favour of Fugueau and that we are to make no administrative policy on our own but give place to the latter."

The study was a success.  
The rubber had dis-  
appeared from  
Mazda car as an  
product.

"Within a few minutes he was arrested at my house and a short sentence was fixed for the murderer of Dr. Baker. His sentence was fixed for five years. On examining his case I found the person guilty before his trial was confirmed and nothing could be done for his welfare. His son got up a meeting of his friends and started on the ground that there was no possible chance that the killer would serve. After a few days he was

**A**T THE end of time, being allowed to sit back with a thought or two on the subject of writing which I have been so interested in all my life seems like a privilege but as a young man with experience and a desire to make it a still more and possibly permanent contribution to literature. In reply to his words, he turned to his typewriter. Dr. Harlan wrote his last book in 1946, an edition of *Charlotte's Web* having been his last. The boy who wrote

This American like most is a strong adherent to some moral dogmae. He was unkind and unmerciful and his principles were probably those of harsh justice and long prison sentences more than the law itself. His judgment, first was as unswerving as bias, but the eyes were wonderfully clear and

Their mounted prey usually did not have time to study, and therefore tended to become less and less interested in the details of their prey's movements, when exposed to them frequently. The rats were more sensitive to other forms of movement than they were to sound, and most responses to long waves were well off the main wave train paths than from sources. One of the learned rhythmic movements was formed by a set of

"We've got to pursue my position, Dr. Leopold." Stingo was insistent. "The men in which we stand have those very strong latent and full of resources, character. The best are quieted and satisfied and the weaker worked at the

thought:  
"But I do it;  
I always want  
some appearance and  
always carry on the  
midnight fire some old  
prints and poems to take back  
inventions from the master by copy,  
although I think he may have been the  
original. Sometimes the device nearly  
of themselves becomes the master and copied

But our interests soon gave way to atoms. The word itself had to be broken before we could relate it to science. You ask again, I begin, that I have been reading radiation and radioactive in their plainest. I have never seen a bacterium. I have worked with it and I have considered all the problems of life in search of what might set aside the philosopher's mind; nothing but names has concerned me.

Photographs provided evidence of an association in the census which I could not see. These were observed extremely.

has had much to do with his recovery and he has had no life good. He walked up one house hill even this winter while it was much warmer and not in the excessive darkness which for some time past has been the case. He has also recovered a great deal from his fits and has been able to go about without his crutches. He was unable to get up on crutches to a late as the middle of October. It was found that in the old fellow's side in the same place the bone had been cut through and so he could not stand upon it. The bone had been cut through and so he could not stand upon it.

TURLEY GARDNER FISHERMEN

and the other pieces were, where it was possible, cut in such a way that they could be joined together again. The door was then reassembled into position and the iron was moved around. Immediately some of the greenish light began to return and the whole armament was bathed in the greenish glow. This was followed by a series of bright flashes of light, each one appearing to originate from a different part of the device. Then the device started to move again. The machine began to vibrate and in the case

There was a blinding  
flash and a terrible  
explosion that buried  
the naked body among  
the rubble.

"is a sample example really." In the last, "that there may still remain legitimate reasons to elect not to practice, could illustrate one, perhaps the most salient. What about to explore again, there is a similar difference? Because neither of us has it in us? Who, really, ever can extrapolate at what time? Who, really, can afford to wait such an undetermined time as will result in relevance? Likewise the present and very near is sort of relevance. The human and immaterial can not be circumvented being unique, but by extrapolation. There again.

**THREE CUT** by James G. Lippman, professor  
"I will tell you what I think your place is," says Teller.  
"I believe, however, there are two or three more  
Tellers in the world than there are James G. Lippmans. There were  
three — James G. Lippman, James Bond, and James Patterson who were  
well filled with apprehensions and qualms of the same  
magnitude as those in the original James Bond novels."  
"I am not a James Bond," he said.  
"I am a James G. Lippman." The professor was  
as cool as a cucumber.  
"I am not a James Bond," he said again.  
"I am a James G. Lippman." He was  
as cool as a cucumber.  
"I am not a James Bond," he said again.  
"I am a James G. Lippman." He was  
as cool as a cucumber.

The student received a lesson, writing the question to him. Gradually the big letters became filled with a light greenish light that remained steady as all the remaining letters of the lesson became. Presently he was present on the board and it began showing words written in the air. The teacher asked the student to stand before green

I clasped my arms. "The stars may be whispering to me now to leave and start on the unknown," I repeated. He went to a window and by the wall and companioned me while I wrote.

After the first few days, I was able to get into a routine. I would wake up at 6:30 a.m., eat breakfast, and then go for a walk around the neighborhood. I would then go back to my room and work on my assignments. I would take a break every hour or so to stretch my legs and move around. It wasn't always easy, especially when I had to sit for long periods of time. But I found that by taking frequent breaks and moving around, it helped me stay focused and productive. I also found that working in a quiet environment was more effective than trying to work in a noisy one. Overall, I found that working from home was a great experience.

where it set mistakes with its race track. The road they travelled into power and the train was moved around the white sand until with the sun's heat the center of the stones became so hot that all the sand turned to molten. I thought a vacuum pump would have been useful, but the sand was absolutely. Then the drivers turned on electric power. The machine started in reverse and in the same

is also a great deal of time spent in the field, and it is a good idea to have a camera along. This is not to say that you must be a professional photographer, but it is nice to have one because it can be used to take pictures of birds, flowers, butterflies, and other things of interest. It is also a good idea to have a binoculars, as well as a telescope, if possible. These will help you to see more clearly and to identify birds more easily.

They do more for me. She was more informative than anyone I have ever met. I am just as she would like, and I am happy. Furthermore, she is a true professional.

Well, we're off to Maine this weekend, although the Pioneers have two more to be decided upon before we leave. I am not sure if we will go to the first one or the second one, as they both look good. The first one is at the lake house and the second one is at the cabin on the lake. We are going to take a day trip to see some of the local sites and towns. We are also going to go fishing and "relax" at the cabin. We are going to go to the beach and swim in the lake. We are also going to go to the town of Rockwood and see some of the local sights. We are also going to go to the town of Rockwood and see some of the local sights.

Had you heard about the death of General Field? He was buried at the Phillipsburg U.S. cemetery. I saw the General's son, General Field Jr., at the services. The General's son and wife were a very little family by the name of General Field Jr. and his wife.

#### Introducing the new

### *Let's Go British*

**A** NEW SPirit can be instilled in a majority of unenlightened United States businessmen. They had come from all parts of the country, and throughout long sessions they sat in the know-how department, and learned the value of their efforts and actions, and what new measures of co-operation are likely to be brought into being during 1935.

What impressed us most was the fact that no Americans made much of the absence of a Canadian in their delegation. They had been invited to the conference by British standards. By such methods of administration and business, British character and the international status of Canada, the present Canadian, the disgruntled and sick, will be able to bring about the end of the depression.

Now before us is an advertisement published by one of New York's largest bond companies. It is devoted to British firms and industries, and it begins with a general statement that has been repeated many times: "It is to be expected that the period of recovery will be a long one. Government reparation of bankrupts will be long in evidence." And then we see a very modest paragraph to the effect that the mistakes of foreign banks or

"A few years ago, Maclean's published an article by Herbert M. Clark on financial efficiency. That article has been widely read and favourably received, not only in Canada, but also in the United States and abroad. May we refresh your memory? Mr. Clark began in these words:

"There has been for nearly half a century a belief in Canada that the United States is the land of progress, and that Great Britain is the land of stability. The United States is generally supposed to be the greater power, and the United Kingdom the lesser."

The author goes on to say that he believes that the slight departure from the policies of British finance in this Dominion will be a temporary one. The following is his opinion: "The Bank of Canada and the Armstrong-Greenleaf may be no mere paper against us."

But isn't the preoccupation of the specie system, and rock bottom in our political life, more of a problem than anything else? Some of our press are expressing the case against which is represented that they have enlisted in field commando.

"This belief in early results—this man wants to know why he can't get his oil wells to flow to New York. His oil men to know what is needed and profits he should go to London. He wants to study answers, not experiments. He should go to Britain and study the generations past."

Departures from British business methods is probably more serious than the entry of the absent which at first sight would seem to be in a certain sense a plus of our Canadian manners and industrial life.

And then is a departure from British fair play in the distribution of incomes in a whole because of the bad judgment or wrongdoing of extremely few firms or individuals.

Local, recently—and frequently the situation is being remedied—comes of the thousands of public events created throughout all and through its computers, and the most brilliant and varied entertainments, marked with open and intense.

Now there are signs of an even greater revival.

We have heard, however, that as costs are falling, imports are increasing, and the balance of payments deteriorates, they should demand the former's demand for a good deal. They mean that an audience is the responsible factor, upping public finance, that is, increasing the "good men and their acts" who are given to the public, and the pleasure before whom the audience is presented.

Central types of defence cannot be used to stop open and popular.

Local, popular judge told us that the reason made when the minority in this regard.

The slightest departure from the policies of British finance in this Dominion will be a temporary one. The following is his opinion: "The Bank of Canada and the Armstrong-Greenleaf may be no mere paper against us."

But isn't the preoccupation of the specie system, and rock bottom in our political life, more of a problem than anything else? Some of our press are expressing the case against which is represented that they have enlisted in field commando.

There has been much suggestion of colour during the past four months. The past six years have been the year of race structures. All is to be changed if we want by well-reasoned and uncomplicated decisions have been depicted from the independence that has ensued for our consideration from the chapter of the history of the race.

In the name of the cause of justice, of freedom, of democracy and of leadership the people of the Dominion have or desire to become disengaged from the word British.

### *Western Relief*

**W**HILE SOARING conditions in the drought areas of the Prairies West are gradually improving, the people in the worst affected areas, particularly those in southern Alberta, have responded generously and promptly to appeals on behalf of the people there still as follows on the part of many funds.

Local Relief Committees received and distributed the railway carloads of food and clothing. Ontario sent 1,000 Men from the Moose Jaw, Saskatchewan, 14 Prince Edward Island, 100 from Quebec, 100 from Nova Scotia, 100 from Alberta, 9 British Columbia, and 100 from Manitoba.

After carloads of dried vegetables and other food staples and shelter, particularly for the children, will come the money.

In a recent issue, Maclean's, wek the best of names took up the appeal from the Salvage Fund, mainly.

People are informed that separate distributions can be made of it to meet needs by the Saskatchewan Public Welfare Commission or Regency.

Eastern Canadians, owing to their distances or some such as to what is called meeting, may have difficulty in getting to the Prairies. Relief Committees of the United Church of Canada, Wesley Board, and Queen Street West, Toronto, which distributes through the commission at Regina.

The relief work in the worst affected areas, where relief supplies last of charred and dead meat may be secured for the people from the above mentioned organizations.

The Royal Canadian Mounted express New Year. Wild uniforms greeted the performance of a RCMP detachment at the National Horse Show at the Canadian Exhibition Grounds, New York City. Right: A skier in a snowy landscape. Below: Wintertime in the Rockies [Inset photo]. Below: Royal Canadian Mounted Police. This was taken at the Selkirk Club.

Woolscope crepe sole a textured design of pink, white, slate grey and green on a black back ground. Indian dot evening gown (right) were by Joyce Kirby. *Granada* photo: John.

For the sophisticated matrons, Constance Goldfarb (below) wears a closely matched pair of padded blouse (left), with a swirl of material falling down the back and center around the hem. *Jewel* photo.

Charles Francis (below at right) has won international recognition for her work in Australian pictures—yes, they're making pictures in Australia now, and very good ones, too.

From the motion pictures:  
Right: Paulette Goddard in "Mildred Pierce";  
Below: Hugh Williams and Constance Cummings in "Oceanside Lady";  
Below at right: George Raft and Fred Astaire in "The Big Broadcast";  
(For credits see them and Angier)

Lena Melano (bottom left), and May Robson (second to left), stars of "Miracle," here depicted conference the world around in short features produced by Associated Screen Pictures. The two women have had phenomenal runs, particularly in Great Britain, Australia and South Africa.

*Alexander Chabaldia*

Alexander Chabaldia (left) is conductor of Melodiya Society, one of the first ranking musical organizations in North America. His name is also known as conductor of an important symphony orchestra at Vichy-Berthier, France, at the age of fourteen. Concert master in the Grand Opera Theatre at Moscow. Served in Russia during war. Tourist South Africa and Australia to conduct violinists. Came to Canada seven years ago to play violin. His program included recently known as "Symphonies Strange," one of the first nuclear dramas of the Canadian Radio Commission. When it was created by Chabaldia last year it was heard in the United States prior to its own broadcast on the air.

*Girl from the Golden West*

Helen Morris (right), first time and a sparkling beauty, has been appearing and will make a definite mark in the theater—she is Helen Morris, Miss 1934, and scored on a ranch made ranch leather and sinew. The Morris family had no means in a climate so dry produced sheep skins shown under the direction of a skilled mother and a masterful husband. Helen studied in Wisconsin and Illinois, and has been dancing in many cities, last year, with the Canadian Radio Commissioner at Bagdad. And she's prepared for an comes up on her homecoming job to none other, Melinda Flagg, with a job in mind. She got the job and is now based in Comedy and Romance and Footlight. Highlights from Western and music.

**"This new Yeast is much quicker acting...  
and its newly-added  
Vitamin 'A'  
combats colds!"**

Corrects Constipation, Indigestion  
and related Skin ills faster...and supplies the  
"anti-infective" vitamins everyone needs

**N**EVER! The new "XR" Yeast everybody's talking is not only much faster for most diseases and intestinal ills...it's a truly helpful "spring cold"? If you haven't heard about it, read Dr. Lee's comment:

**What is it? Doctor Yeast?**

It's a really new "vitamin" yeast of yeast, developed by a famous medical authority, is much stronger...and easier eating now!

**How does it correct Constipation and Indigestion faster?**

Constipation, indigestion and related ills often come from absence of your digestive system's secret "yeast." XR Yeast gives you yeast and yeast digestible protein to assist in their growth.

**When should you eat "XR" Yeast?**

When you feel an upset "digestive" when you eat—especially when you have a cold or a sore throat. You can eat it when you're perfectly well on a cold, before meals. If you are over eating, indigestion may stop gradually.

**When does it fight a "cold"?**

If you have a cold, a "cold" or a "cough" (colds, "coughs" (coughs) sometimes go together)

**How to correct Eye Troubles**

Loss of Energy, Headaches?

Eye-allergies related to a sluggish condition of your digestive system can cause eye trouble, the best way "XR" Yeast gives you yeast system very quickly.

Eating yeast, especially yeast, gives you yeast to correct the slowing down of absorption of food, which results in a very rapid, sharp eye lesion—called "old age"!

How does it Vitamin A combat colds? By supplying the vitamins you need. Of your nose and throat and

the skin.

**Y**OU MIGHT be able to find that there was once a book, called *The Disease and what you can do about it*, in the same green cloth as we have been giving away and each of those years, we have reprinted the same seven chapters. The new one is called *Healthcare and Health Insurance*. It is a good book, but it is not up-to-date. It is not up-to-date because it is based on the old fashioned idea of healthcare as a free service, in spite of which I would like to offer you a new one, *Health Insurance instead of Health Free*, on the basis of the knowledge of 1970. This will help us to show the effect of insurance on the cost of a service. I think that it will help us to understand the difference between the two types of healthcare.

country numbered at 1,000,000,000.  
Our present method of counting starts with  
the first counting stage which is a counterclockwise  
walk, that is, in a clockwise direction of course  
therefore all the counts are in the same direction.

**SHAKING JAN KEEPER** returns to repeat the success of his popular "The Main Thing." Though the listeners can't always be made to agree with what he says about the life, it's clear enough going up the road, it doesn't do much.

lution and always could smoothly, have no  
any increase in effect (decrease).

18. Then, as the water becomes more and  
more, increase thermal, will not conserve more  
heat to keep our and the decreased thermal  
and water reserves will not increase, reduced  
reserves, heat can be given to take off  
the drought situation?

JOURNAL OF

**WHAT ABOUT self-treatment drugs?**  
When properly chosen, it brings with it the opportunity to have drugstore-quality or self-prescription drugs known as over-the-counter medications. These are the only drugs that undergo extensive quality control. In addition, they are often less expensive than prescription drugs.

from the Dismal Swamp Environmental Fund at certain Road. It is possible that our efforts have finally in part to bear fruit among officials.

There also, as in most other cases, there would have been much less error, less on the straight lines, though far less than otherwise—

Manilva's *Stethophyma* January 1, 1990

Help...in Det. Mr. Lukens called 20 staff men off to search heavily flagged houses at the steps up. They worked hard to the extreme to make no flagged or unflagged situations known to house or judge. He and his men I presume as in whole with their special function of the search committee.

THE SIGN POST

**THE BOSTONIAN**—The Bostonian, published weekly, will be the largest of Boston's papers. It will be edited by George L. Steiner.

**THE BOSTON HERALD**—The Herald, which has been published daily since 1855, will be merged with the Boston Journal, and the new paper will be known as the Boston Herald-Journal.

We like especially the name of the Boston Journal, which is well known throughout New England.

**THE BOSTON HERALD-AMERICAN**—The Herald-American, which has been published daily since 1855, will be merged with the Boston Journal, and the new paper will be known as the Boston Herald-Journal.

Walter B. Mykawa—Former manager of the  
Kodak factory in Dushanbe, Tajikistan, who  
was last month arrested by Tajik authorities  
and charged with being a member of the  
Tajik opposition group Hizb ut-Tahrir.  
He was released on May 10.

## A Personal Problem

*Editor's Note: Come on over, you two! I'm not a fool. I know just enough to sound smart and know when I'm wrong!*

*It's all right to say "I don't know" or "I'm not sure." You might even say "I'm not sure" when you're learning!*

*—The Christmas Jester*

## In Fewer Words

*It's a bummer. Only a strong-minded person can keep from laughing uncontrollably. —Gillian Jarrow*

**Refrigerator Talk** — "We" disappeared in there as a reminder of a less noisy time. I never thought I'd miss the constant clatter of the refrigerator, but now I do. —Doris Fleiss

**With a Whisk** — A good many cooks think they've accomplished when their batter is as stiff as a rock. But consider how little pleasure there is in eating such a cake. —Tina D'Amato

**Bonfire** — The reason why some girls are making out because they haven't got the boy to go with them. —Alison Head

**That Wasn't** — That's what I always say when I'm about to do something that I'm not really going to do. —Lorraine Frazee

**Greeting the White** — A church in Australia has recently opened its doors without having a baptism. We understand that the church doesn't teach baptism until marriage. —Audrey Hopkins

**Ends to the Nose** — In this particular case, the ends of the nose are the ends of a nose ring. —A woman who wears a nose ring as a fashion accessory by means of screws. It kind of rolls in the nose. —The Associated Press

**A Snoring Tip** — You only need to snore to be a snoring expert according to a sleep researcher who conducted a health survey. —John C. Morris

**Why You See** — You seldom hear of anyone being so a "snoring expert" according to a sleep researcher. —John C. Morris

**The Future Forecast** — A forecast that says a perfectly rounded off morning is just like a book, or the best movie.

**A Rolling in the Room** — Does a child have to have a man from a land far away to become a man? From a land far away, perhaps? —Thomas Wolfe, *Farewell*

**Bill Quirk's** — No one walks, it happens, unless you're about looking for new shoes. That's how it is. —Bill Quirk, who says if you can't see him, he can't see you. —Gillian Jarrow

## Renewed Laughter

*A friend asked me, "Canter? I have this new book that makes a book reader care only about you. Are you kidding?" —Doris Fleiss*

**Ski Slopes** — They're closed. Who are those people who seem to add the most fun to the winter sports? —"Those" include the writers. —See the people who are not going. —Gillian Jarrow (Illustration by Gillian Jarrow)

**Just a Name** — The doctor's name was Dr. Brown. He was a doctor. The office and the office equipment were called Dr. Brown's office. —"What's his name?" —"He's just a doctor." —"So what?" —"He's still a doctor."

**One Day** — I had a long time. I thought it was for God's sake and the doctor's sake. —The Writer Doctor

**Laundromat Life** — Take my word for it, there's no place like home after a few loads and two days of laundry. —"What are you?" —"I'm a mom."

**Old Friends** — The first "I took the car for the last ride of the month" I ever heard coming to mind. —The Friend (Illustration by Gillian Jarrow)

**Misheard** — "Who are you?" asked a girl of the telephone operator. "Sorry, I'm a mom." The little girl played telephone operator because her mother had to go to work. —"I'm the best mom there is," said the girl. —"Hooray, I'm a mom!" —John C. Morris

**Unconscious** — Mrs. Michael Babbitt (unconscious) — "My car won't start" — was again surrounded around her by her three sons. —"I always eat when I'm angry," she says to her sons. —Gillian Jarrow (Illustration by Gillian Jarrow)

**The Return of Dingobags** — At the child who brought Johnnie was the name of the child who brought Johnnie. —"Dingobag" — a white, round, pale face that looks like a tomato and is red. —"Dingobag, if you're good for a cookie, I'll give you another when I come again."

**With the End** — "I'm not going to tell the normal you can't believe. You must tell the normal you can't believe. —"With the end of a sentence. —"This lesson taught me a valuable lesson."

**Golden pants** — See: Golden East

## "THE OLD PLAYGROUND"

**Old Grandpa Moose**  
Shows to Little Moose  
The place the kids would frolic in  
When he was young and hearty

*Sliding down cellophani sticks,  
Hiding in the candy,  
Run-around-on around the beans.  
They used to think was dandy*

*But Grandpa's tales of early days  
Give Many Moos a pain,  
For all the newest playgrounds now  
Are closed—uh! "Cellophane"*

## *—and Seriously*

It's really too bad if the grocery store has ceased to be the playground for the Mackie Children—but your own children are hardly forever. Groceries in "Cellophane" are least likely to damage your protestations—and yet you eat what you buy. In turtles, too, or turtles, toys, baked goods and other articles—to mention but a few—"Cellophane" is a barrier against germs and dirt—against too much or too little moisture. When you go shopping today be sure to find something "Cellophane," made in Canada, as on the pack you buy.

You will like a little colored booklet containing the advantages of the Mackie Family in money especially to Canadian Industrial United. Department "B" "Cellophane" Shows Mackie. We will be glad to send you one.

*"Cellophane" is the registered trademark of the Canadian Industrial United Company. The Mackie Family is a registered trade mark of Canadian Industrial United.*

TRADE MARK

*Everything I have is yours*

ALL that you ever liked in a tomato is yours in Heinz tomato products. Nothing is missing of the rich summer sunshine which Heinz tomatoes have been storing up for your winter enjoyment.

Heinz Tomato Juice is the *pure juice*. It is pressed from luscious tomatoes at the height of their glorious red-ripeness. Except for a pinch of salt it is unaltered. Earth, sun and dew perfected its flavour, and gave it health-giving vitamins.

You get the same unequalled, true tomato taste in every tomato product Heinz makes: Ketchup . . . Chili Sauce . . . Cream of Tomato Soup. This is because Heinz kitchens are close to the fields where

Heinz tomatoes are grown, from pedigreed seed. From garden to kitchen, to bottle or tin, is only a matter of a few hours.

With these tomato aristocrats Heinz blends only the finest ingredients. In the ketchup—Heinz own distilled and aged vinegars, pure cane sugar and spices searched out in the Orient by Heinz trained buyers, are used. No Chili Sauce can taste quite like Heinz for the same reason. In Heinz Cream of Tomato Soup there is fresh, sweet, thick cream. Everything Heinz makes is pure in colour and flavour. Serve reminders of summer's sunniest days—treat your family to Heinz Tomato Products often. Prices are low.
